The exhibiting photographers will be Madelyn Livoti-Garstak, Daniel Paul Potter, Marilynn Potter, Raymond Sussmann, and Thomas Vaillancourt.

The theme of this exhibit, as stated by the **Quintet Photographers Capturing Life**, is:

*All too often we allow the world to pass us by without thinking about it. The rapid pace of our world, aided by the Internet, Twitter, and Facebook, has decreased the amount of time we spend observing our surroundings. We ignore the culture, history, and aesthetics of our existence. **Focus on Our World** encourages our audience to explore their whereabouts and the people, places, and beauty that encompass it.*
